A BIT ABOUT ME

As an experienced Full Stack Developer, I have a robust background in crafting dynamic and responsive web applications. My expertise spans both backend and frontend technologies, with particular proficiency in modern **JavaScript** and **Python** frameworks such as **React** and **Django**.

Additionally, I am experienced in a range of content management systems such as **WordPress** and **Adobe Experience Manager (AEM)**, enabling me to develop and maintain versatile and user-friendly websites.

Throughout my career, I have successfully integrated complex features and functionalities into web applications, ensuring they are both scalable and maintainable. My experience with **PHP** and **C#** has allowed me to build efficient and secure backend solutions, while my knowledge of various **CMS** platforms ensures seamless content management and customization capabilities.

I grow in collaborative environments, working closely with cross-functional teams to deliver high-quality digital products that meet and exceed client expectations. My ability to adapt to new technologies and frameworks quickly allows me to stay ahead in the ever-evolving field of web development

MOST RECENT WORK EXPERIENCE

DYNAMIC INC. -
UNITED STATES
JUNE 2020 - Present

ASSET MANAGER

At Dynamic Inc., I have been responsible for a variety of tasks that support our webbased administration and overall business growth:

Website Operations: Managed and maintained the company website, ensuring it is up-to-date, user-friendly, and secure by using modern JavaScript frameworks and CMS.

Social Media Accounts: Oversaw the company's social media presence, creating and scheduling posts, engaging with followers, and monitoring analytics to improve performance.

Digital Branding: Developed and implemented digital branding strategies to enhance the company's online presence and reputation.

Reporting: Generated detailed reports to help directors make informed decisions regarding business strategies and operations.

Capital Fundraising: Provided advice on seeking equity and fundraising options to help grow the business.

Mergers & Acquisitions: Assisted in financial planning and analysis for mergers and acquisitions, ensuring smooth and strategic transitions.

NURP, LLC - UNITED STATES . JUL 2024 - OCT 2024

Senior Web Developer

At Nurp, I led the Web Development team in creating and optimizing WordPress websites, managing integrations like HubSpot, and implementing Google Tag Manager and Analytics to enhance site performance and user experience across platforms.

- **Led** the Web Development team, coordinating efforts and ensuring project alignment with marketing goals.
- Developed and maintained **WordPress** websites using **Elementor**.
- Created high-performance landing pages optimized for speed, **SEO**, and AMP compatibility to enhance mobile performance.
- Integrated third-party services, particularly **HubSpot**, to increase site functionality and data integration.
- Collaborated with design and marketing teams to bring web concepts to life and align projects with strategic goals.
- Implemented and managed **Google Tag Manager** and **Google Analytics** to monitor website performance and track key metrics.
- Ensured website functionality and stability across various devices and browsers.
- Troubleshoot and resolved website issues efficiently to maintain a seamless user experience.
- Managed projects and tasks to meet deadlines and maintain project timelines via **Asana** board.
- Stayed updated with the latest web development trends and best practices to improve site performance.
- Assisted in website performance monitoring and optimization.
- Supported additional tasks as required to meet the Marketing department's needs.

GUTTER GUYZ, LLC - UNITED STATES . MAY 2023 - Present

UI/UX SOFTWARE ENGINEER

In my role, I provided comprehensive oversight and management of our cooperative company relations, ensuring seamless collaboration and effective communication across all involved entities.

Project Management: Spearheaded the management of the Sitecore and WordPress project, overseeing all aspects from initial planning to final implementation. This involved coordinating with various teams, setting project timelines, and ensuring deliverables were met on schedule. Also worked on some React and python frameworks.

Stakeholder Communication: Maintained open lines of communication with stakeholders, keeping them informed of project progress, addressing any concerns, and ensuring their requirements were met.

Strategic Planning: Developed strategic plans to enhance cooperative relations, identifying opportunities for collaboration and growth, and implementing initiatives to achieve these goals.

Performance Monitoring: Monitored the performance of cooperative projects, using data and feedback to make informed decisions and adjustments to improve outcomes.

Problem Resolution: Acted as the primary point of contact for resolving issues, mediating conflicts, and facilitating discussions to achieve mutually beneficial solutions.

By managing the WordPress project and fostering strong cooperative relations, I played a key role in driving our company's success and ensuring the satisfaction of all parties involved.

THE GILDER PALMER
SANCTUARY
TYRINGHAM -
MASSACHUSETTS,
UNITED STATES
APR 2021 - Present

SENIOR WEB DEVELOPER

At Four Brooks Farm, I have taken on a diverse range of responsibilities centered on enhancing and managing our digital presence:

Website Concept & Development: Designed and developed the farm's website from the ground up using React.js for the frontend and Django for the backend, ensuring a visually appealing and user-friendly experience for visitors.

Routine Website Updates: Regularly updated the website with new content, including blog posts, event announcements, and seasonal updates, to keep visitors informed and engaged.

Social Media Management: Managed the farm's social media accounts, creating engaging posts, responding to inquiries, and building an online community.

Internet-Based Entities: Oversaw other internet-based aspects of the farm's operations, such as email marketing campaigns and online customer support, to enhance overall digital engagement.

Mobile Application Development: Developed a mobile application using React Native to provide a seamless and accessible user experience for customers on the go, including features such as event notifications, farm news, and easy contact options.
